Tailwind Css: Intermediate

C++: Intermediate

C

Oop (C++)

React: Intermediate

MongoDb: Beginner

Nodejs: Beginner

Express JS

Problem-Solving: Intermediate

LANGUAGES

Hindi: Advanced

English: Upper Intermediate

EDUCATION

Maulana Azad National Urdu University, B.Tech - CS & Information Technology
01/2024 – 01/2028 | Hyderabad, India

PROJECTS

Language Learning App, MERN

Present

- Built interactive UI with React to improve user engagement and learning efficiency.
- Developed REST APIs using Node.js and Express for seamless backend integration.
- Optimized MongoDB queries for better performance and scalability.
- Collaborated on feature development to align with user experience goals.

Travel Listing Platform, Node.js - MongoDB - Auth

Present

- Developed Node.js APIs for managing travel listings with high performance.
- Optimized MongoDB queries to improve data retrieval and application speed.
- Implemented secure authentication to protect user data and ensure privacy.

Country Explorer, REST APIs - JavaScript

Present

- Built a responsive web application to display real-time country data.
- Integrated REST APIs for efficient data fetching and dynamic content rendering.
- Implemented clean UI and optimized performance for better user experience.

Mac OS Portfolio, React - Tailwind CSS

Present

- Desktop-inspired portfolio mimicking Mac OS UI, showcasing projects in an interactive, polished environment.
